Fr. Rubin Thottupuram
Head of the Department

ACKNOWLEDGEMENT

First and foremost, I thank God almighty for his eternal love and protection throughout the seminar. I take this opportunity to express my gratitude to all who helped me in completing this seminar successfully. It has been said that gratitude is the memory of the heart. I wish to express my sincere gratitude to our manager **Rev. Fr. Dr. Mathew Paikatt** and Principal **Dr. Z V Lakaparampil** for providing good faculty for guidance.

I owe a great depth of gratitude towards our Head of the Department **Fr. Rubin Thottupuram** for helping us. I extend my whole hearted thanks to the seminar coordinators **Mr. T J Jobin** and **Ms. Gloriya Mathew** for their valuable suggestions and for overwhelming concern and guidance from the beginning to the end of the seminar. I would also like to express sincere gratitude to my guide, **Dr.Juby Mathew** for his inspiration and helping hand.

I thank our beloved teachers for their cooperation and suggestions that helped me throughout the seminar. I express my thanks to all my friends and classmates for their interest, dedication, and encouragement shown towards the seminar. I convey my hearty thanks to my family for the moral support, suggestions, and encouragement to make this venture a success.

ABSTRACT

Brut3k1t is a platform for performing penetration testing of web applications. And a server-side brute force module that supports dictionary attacks for several protocols. You are able to perform full-range security testing, from the initial mapping to the analysis of an application's attack surface and vulnerabilities

A choice platform among penetration testers, brut3k1t offers users full control through a combination of advanced manual techniques and automation. The tool is written in python and developed by group of seven people.
